CARNIVAL RECAP

- Carnival went great. It was possible because of parents and volunteers.
- Haunted house brought more than last year on just one night.
- Morning had a hard time getting volunteers.
- We are working on a dad program. If anyone has ideas for volunteers let her know.
- Survey Monkey. Results: People really liked the layout of carnival. A lot of them said that their favorite part was haunted house. They liked the games, especially the dump bucket and bounce houses. A lot of people say they wish it was cheaper.
- Discussion: 5th grade only worked haunted house so they are asking that they don't get request for donations. They had their own meetings so they weren't really in the loop of what donations were requested from them. Perhaps to include what donations they needed to contribute in their packets. Question: Did they donate a lot to amazon. Per Kim: 3 families donated. Room moms usually go crazy with their ideas. Kim sent amazon list to all parents.
- Feedback and discussion asking for all these things. And then upping the price the day of. Perhaps board needs to remind the parents when requesting donations and post at the carnival booths what all the donations go to support.
